DETAILED ACTION

Specification

1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

2. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Allowable Subject Matter

- 3. Claims 1-6 are allowable over the prior art of record.
- 4. The following is a statement of reasons for the indication of allowable subject matter:

As per the independent claims, the recited claim limitations pertaining to using reverberation information, obtained from input speech, to be imparted upon the synthesized speech parameters associated with non-recorded text data, and overlapping the synthesized

speech with recorded speech portions aligned with recorded text data, is not explicitly taught by the prior art of record.

Conclusion

- 5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Please see related art listed on the PTO-892 form.
- 6. This application is in condition for allowance except for the following formal matters:

Please see the issues listed above with respect to the title and abstract.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
